

Tudor on the Point

Along Lake Minnetonka, MN

WITH 270-DEGREE VIEWS OF LAKE MINNETONKA, Tudor on the Point is one of Murphy & Co. Design's most spectacular projects. The home reflects the clients' desire to live in a classic Tudor-style home with luxury amenities. "We wanted to recreate the clients' favorite elements of a Tudor home and reinterpret them to give something that is both fresh and familiar," says Jeff Murphy, owner and founder of Murphy & Co. Design. The firm was able to achieve this by using period details like aged iron railings, stone columns, and plastered walls and ceilings, as well as carved limestone fireplaces—one of which was hand carved by a local artisan. "The client set a challenge for us at the beginning of our work to make as many rooms as possible have lake views," Murphy explains. "We managed to give every room in the house a view except the mechanical room and the laundry room." And to make sure that the client truly took advantage of living on the lake, as well as the sights, sounds and smells that accompany such a serene spot, Murphy and his team included outdoor fireplaces, terraces and a few Juliet balconies. ●
